Darren is dedicated to giving back and helping to educate young people about the reality of drug and alcohol misuse.

Darren Waller was selected in the 6th round of the 2016 NFL draft but was suspended for repeated violations of the Substance Abuse policy. Darren went to rehab, returned home, and worked hard while training for reinstatement into the NFL.

In August of 2018, he was reinstated. Darren is an example of overcoming substance abuse and he is dedicated to giving back and helping to educate young people about the reality of drug and alcohol misuse.

He will be launching the Darren Waller Foundation in the spring of 2020.
